

**Heart** - Recognise the reasons why there is conflict and what we could do to sort out the problem.

**Hand** – Play and work together cooperatively. Take turns and share. Help to ensure that everyone in the group is included. Begin to be able to resolve conflict.

**Head** – Geography and History

### **Spring term 2021**

Dear Parents,

We hope you've had a chance to look at the attached topic webs for the curriculum we have planned for this term.

This term our enquiry is going to be based around the theme of peace and conflict. You've already had a really good go at working out the definitions for these words in your English.

Our big question that we are going to be trying to answer all term is this one.

#### **How do we share?**

We know you've already been thinking about different ways that you can share things in Maths as well as in our Enquiry work.

We know that at the Croft we want to develop resilient, compassionate and responsible citizens. So how are we going to help you become those citizens? Well we are going to teach you all the things you need to know and all the skills you need to know and that's going to be called our head time. That's where we will be doing our geography and history and there may be other subjects too, but definitely those ones. Then we are going to help you become compassionate and that's where we are going to help develop your heart. Not the one inside your body, but the one that helps you to feel and care about other people because we are going to help you realise that sometimes there is conflict and then we will know what to do about it and how we can sort it out. Finally, we are going to help you become those responsible citizens and that's where our hand comes in. That's where we are going to show you that we can work together to resolve conflict, take turns and share so that we can help each other so that we don't fight anymore.

We hope you understand that this curriculum and activities were all planned before we went into lock down, we will do our best to cover all aspects of the curriculum the best way that we can through Home Learning. Thank you for your continued support.

Best wishes

Mrs Soutar and Mrs Hartley
